|                 |   |             |
|-----------------|---|-------------|
| OBJECTIVE       | A position in the field of computers with special interests in business applications programming, information processing, and management systems.   |             |
| EDUCATION       | <i>Bachelor of Science</i> , Computer Science<br>Rensselaer Polytechnic Institute, Troy, NY, expected May 2026<br>Concentration: Systems and Software<br>Minor: Finance, Chinese<br>GPA: 3.54   |             |
| COMPUTER SKILLS | <i>Languages &amp; Software:</i> C++, C, Java, JavaFX, Python, HTML, CSS, JavaScript, Bash, React Native<br><i>Operating Systems:</i> macOS/Linux, Windows  |             |
| COURSES         | <i>Application Design using Java</i>  | Summer 2024 |
|                 | Learned how to properly present complete applications to clients and document code using manuals and Javadoc.   |             |
|                 | <i>Data Structures</i>  | Spring 2023 |
|                 | Wrote 10 programs using C++.  |             |
|                 | <i>Introduction to Algorithms</i>   | Spring 2024 |
|                 | Learned how to design and analyze various modern algorithms and apply the results to specific problems.   |             |
|                 | <i>Computer Organization</i>  | Fall 2023   |
|                 | Learned about computer organization, assembly language, and operating systems.  |             |
| PROJECTS        | <i>One Percent Challenge App</i>  | Spring 2024 |
|                 | A daily challenge app.  |             |
|                 | <ul style="list-style-type: none"><li>• Learned how to use React Native and integrate Firebase.</li><li>• Developed a product using a user-centered design thinking process: define the problem, research the market, prototype, test with users, repeat.</li></ul> |             |
